About Kinetic

We are the UK's leading supplier of event management and student accommodation software to the higher education sector. Our team of 75 people work out of our Milton Keynes (HQ) and Ludlow offices in the UK and from our US office, generating annual revenues of around £10m; we're growing at around 10% per annum. We're owned by Constellation Software Inc., one of the largest software groups in the world, providing fantastic opportunities for benchmarking, sharing best practice and learning.

Kinetic proudly supports 84% of UK and Irish universities, 60 universities in North America, as well as unique venues such as Lords Cricket Ground and the Merlin Group with our deep and powerful software offering. The culture at Kinetic is one of passion, drive and fun where everyone pulls together to deliver an outstanding customer experience, growth and profit.

We support personal development and build on individual strengths, providing options for career progression across our business.

Kinetic is working towards an exciting but achievable goal of growing our revenues to £25M by 2025 through innovation and the reimagining of our product set. This will not only cement our position as market leader in the UK but also expand our presence in international markets.

Summary

We are looking for a web developer to join our Student Online Services team. The successful candidate will be developing customer-specific websites that enable students to apply online for university accommodation.

This role would be ideal for a proactive web developer who likes a challenge and is happy to get stuck into the details of complex code.

There are significant and exciting technological developments in progress throughout the business so this is also a role that comes with great future opportunity.

Responsibilities

- Timely and accurate delivery of scheduled work
- Writing and amending code in various languages
- Communicating with customers to provide updates and obtain clarity
- Writing specifications from project managers
- Providing estimates to complete work
- Deployment of developed work to UAT, development, test as appropriate
- Identifying and raising project risks and issues
- Liaising with staff internally to resolve project delivery issues
- Analytical reviews of customer websites
- Other ad-hoc projects as required

Required skills

- HTML, CSS, JavaScript, JQuery
- TSQL
- C#
- Resilient with the ability to manage high pressure workloads
- Self-motivated and driven to achieve results and learn
- Proactive to change
- Excellent communication skills, written and verbal

Desirable skills

- Exposure to .NET Framework, in particular ASP.NET Web Forms
- Ability to declare and debug stored procedures and complex SQL syntax.
- Familiarity with deploying work to customer environments and IIS configuration
- XML
- Microsoft SQL and SSMS
- Graphic design skills
- Knowledge of JIRA

Benefits

In return you will benefit from:

- Competitive salary
- Being part of an exciting team & working within a thrilling industry
- Company bonus scheme
- Life Cover at 2 x annual salary
- 25 days holiday annually, public holidays, Wellbeing days and charity/community days in addition
- Company contribution to pension of 5%
- Excellent training and support with natural potential to develop further
- A company portal of staff benefits, which is customisable by you including holiday buy/sell options, private health care, life assurance, personal development, cinema tickets, wide range of discounts at retailers and much more!

Kinetic provides excellent working environments at its offices, including kitchens with free tea, coffee and refreshments. Our social committee organises activities and events. All staff have access to a flexible benefits package.

Other information

You will need to provide

- Proof that you have the right to work in the UK
- A reference
- A DBS check
