

## Web Developer

Location: Milton Keynes/Hybrid

---

### About Kinetic

We are the UK's leading supplier of event management and student accommodation software to the higher education sector. Our team of 75 people work out of our Milton Keynes (HQ) and Ludlow offices in the UK and from our US office, generating annual revenues of around £10m; we're growing at around 15% per annum. We're owned by Constellation Software Inc., one of the largest software groups in the world, providing fantastic opportunities for benchmarking, sharing best practice and learning.

Kinetic proudly supports 84% of UK and Irish universities, 60 universities in North America, as well as unique venues such as Lords Cricket Ground and the Merlin Group with our deep and powerful software offering. The culture at Kinetic is one of passion, drive and fun where everyone pulls together to deliver an outstanding customer experience, growth and profit.

At Kinetic, we constantly strive to find the right people and provide all the tools and support to allow us to develop both personally and professionally. We are looking for bright and dynamic individuals who can bring energy and enthusiasm to a demanding role within a rapidly growing and successful company.

We support personal development and build on individual strengths, providing options for career progression across our business. Our core values are to **Empower** our **Community** to **Innovate** and **Evolve**.

---

**Why This Role Matters:** As a Web Developer at Kinetic, you won't just be doing a job. You'll be shaping the future of higher education solutions. You'll collaborate with passionate professionals, drive innovation, and make a tangible impact every day.

**Your Role & Responsibilities:** As a Web Developer, you'll:

1. Ensure punctual and precise completion of scheduled tasks.
2. Code and modify in a variety of programming languages.
3. Engage with customers for updates and to gain clearer insights.
4. Draft specifications as per project managers' directives.
5. Offer estimates for work completion.
6. Deploy the finalised work to UAT, development, or test environments as needed.
7. Spot and report potential project risks and issues.
8. Collaborate with internal teams to address project delivery challenges.
9. Conduct analytical assessments of customer websites.
10. Undertake other miscellaneous projects when necessary.

### Your must-have skills:
