Kinetic

Joining all the dots of your event spaces

Meet KxConferncing: Our user-friendly management and adminstration tool for conferencing, meeting and event spaces. Oversee every stage of the event journey from a single platform, cut out data inconsistancies and maximise sales opportunities.

How it works:

All information in one location

Connect every part of space booking and management into a single ecosystem: enquiries, services, payments, invoicing, reporting and much more.

Full integration

KxConferencing can be integrated a wide range of functions, including EPOS, financial and keycard systems to coordinate management and eliminate data duplication.

Automated functionality

Quote and contract creation takes place automatically as customer data enters the system, for a faster, smoother experience.

Powerful reporting

Extensive and configurable reports help you take full advantage of your data, and uncover potential cost, resource and admin effeciences.

How it helps you

Get a centralised view

Enable your staff to stay constantly up to date with a full picture of booking status, availability and other information, all in one place.

Cut out human error

Moving towards a fully digitsed and coordinated system removes the risk of paper docusments being lost or manual errors being made.

Simplify booking proccesses

Support a seamless, end-to-end booking process from initial enquiry to invoice and payment through a single platform, with full visibility of information.

Increase revenue

Follow up more event requests and explore easier opportunities for upselling catering, accommodation, AV equipment and other extras.

Gain vital insights

Get a clear picture of revenue invoices, payments, flex pricing and sales forecasting, so you can make informed decisions for the future of your organisation.

Deliver better services

Respond to enquiries and contacts faster, more flexibily and with better information, for the level of service that today's customer expect.
