Here you can see the TVL is applied for first five nights. The charges between 9th-13th October is £126 per night. The final two nights of the booking do not have TVL applied so will charge £120 per night.

The screenshot shows the 'Financial - Ted Baker' section of the booking system. The 'Room Rates' table is as follows:

From	To	Description	Rate/Night
09/10/2025	13/10/2025	Accommodation Element	£126.00
14/10/2025	15/10/2025	Accommodation Element	£120.00

The 'Additional Rates' section is empty, displaying '<No data to display>'. The financial summary at the bottom shows:

- Total Booking cost: £870.00
- Tax: £145.00 STANDARD
- £25.00 TVL

The 'Payment' dropdown is set to 'Pay on Arrival', and the 'Routing' is 'Charges to personal account'. The 'Total for Booking' is £0.00.

10

Click to change the payment routing to the main account

The screenshot shows the same booking system interface, but with the 'Payment' dropdown menu open. The 'Routing' is still 'Charges to personal account', but the 'Main Account' option is highlighted, indicating the user is about to change the payment routing. The 'Room Rates' table and financial summary remain the same as in the previous screenshot.

11 Click "Charges to main account"

The TVL total is included in the Total Gross numbers, you can see the 20% Standard tax is applied on all nights but the TVL is only applied on the first five nights.

Therefore the price per night drops from £126 per night to £120 per night after the fifth night.

The Tourist Visitor Levy (TVL) applies to accommodation charges, which means it will be included in residential bookings as well as in other Kx applications, such as Conferences and Events that involve room bookings. However, if an Event also includes catering charges, the TVL will **not** apply to those catering charges — it will only be applied to the accommodation portion
